## Career Objectives

---

Detail-oriented Flutter developer with strong analytical skills, focused on building smooth, reliable, and user-centric mobile applications. Experienced with Dart, state-management patterns, responsive UI design, and modern Flutter workflows.

## Education

---

**Chandigarh University**, Bachelor of Engineering (B.E.) in Computer Science Sept 2022 – May 2026

- Pursuing undergraduate studies with major in Computer Science

**Devasthaly Vidyapeeth**, Senior Secondary (Intermediate) 2020 – 2022

- Completed senior secondary education with specialization in Science (Physics, Chemistry, Mathematics).

## Internship Experience

---

**GradGuide** | *LLM Developer Intern (Backend)* May 2025 – Aug 2025

- Developed backend recommendation algorithms and APIs that powered real-time user-facing features.
- Built and optimized REST APIs used by internal and external applications, improving integration performance.
- Managed deployment and storage workflows on **Google Cloud Platform (GCP)**, ensuring reliable services.
- Designed backend services for the company's internal **CRM system**

## Projects

---

**APIX Streaming Platform** PlayStore link

- Built a full-featured video streaming platform with secure Razorpay payment integration.
- Implemented smooth HLS (m3u8) playback with adaptive streaming for low-latency performance.
- Successfully deployed the application to the Play Store, handling app signing, bundles, and release workflows.

**ChatApp** Flutter ChatApp

- Developed a real-time chat application using Flutter and Firebase (Auth, Firestore, Storage).
- Implemented 1:1 messaging, read receipts, media sharing, and online/offline presence tracking.
- Designed responsive UI with clean state management and smooth navigation flows.

## Skills

---

### Flutter Development

**Languages:** Dart, JavaScript, Python

**Frameworks and Tools:** Flutter, Firebase, Riverpod, Provider, GetX

**Mobile:** REST APIs, responsive UI, animations, performance optimization

**DevOps:** Git, CI/CD, Play Store release

**Soft Skills:** Problem Solving skills , Communication , team collaboration

## Extracurricular Activities

---

- **Smart India Hackathon (SIH) Finalist:** Developed front-end interface for innovative solution
- **Winner of BFCET 1.0 Hackathon:** Led UI/UX design and implementation
- **Team Lead at multiple projects during college and at hackathons**
